

# PRODUCT DESIGN BROCHURE

stangard

This Brochure and the design shown remains the property of Stangard Design Solutions Ltd and must not be disclosed to third parties or reproduced in full or in part without our written permission.

STANGARD  
DESIGN  
SOLUTIONS

| The pod is a compact, cost effective and contemporary service point and a useful addition to any catering operation. It offers a good return of investment providing opportunities to increase sales and will help alleviate pressure on existing facilities.

| Measuring 3m x 2.8m and standing at 2.5m the Stangard Pod is finished in a contemporary grey with the option of a feature timber effect accent. The pod is fitted with exterior lighting and a overhang to the roof to provide some cover during inclement weather.

OPTION 1

| OPTION 1

Countertop displays offering hot, cold and ambient options in a variety of sizes. All are assisted service and all can be easily removed if required. A heated storage cupboard can be fitted under as a cost option.

| OPTION 2

Fixed inset hotplate with full depth front glass screen for assisted service. Again a heated storage cupboard can be fitted under as a cost option.

OPTION 2

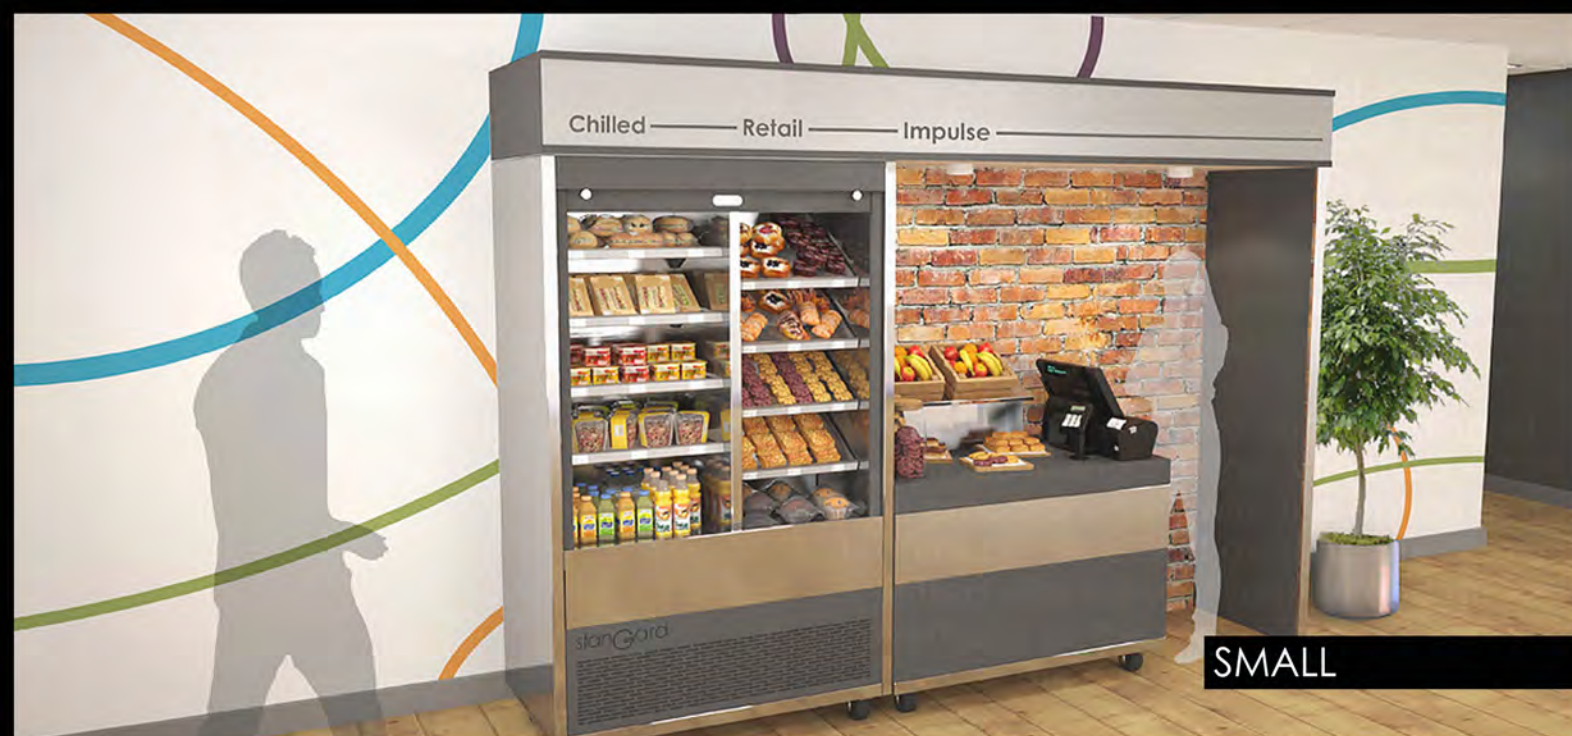

| Designed to provide a predominantly served offer, the internal space is arranged to allow for operation by 1-2 team members. Access is via a side door which includes a vision panel for safety.

| Constructed in-situ access to the required location is rarely a problem. The pod is often placed in an open quad or adjacent to a break time social space; most locations can be considered.

- | A compact 2m x 2m external micro pod.
- | Value engineered to suite limited budgets.
- | Designed specifically for 'pre packed' hand held hot & cold snacks & drinks.
- | Providing customer facing chilled & hot snacks display.
- | Integral hot cupboard & ambient storage.
- | Adjustable display shelving to rear wall.
- | Choice of colours (additional cost)
- | Durable GRP & aluminium construction.

SMALL

**FOOD**  
RETAIL SYSTEM  
PRODUCT DESIGN

| The Food retailing system is a "Modular" cost effective and contemporary service point and a useful addition to any catering operation.

| Incorporating a mix of hot, chilled & ambient displays with integral till point. It offers a good return of investment providing opportunities to increase sales and will help alleviate pressure on existing facilities.

MEDIUM

| Minimum 20% less expensive than conventional shop fitted build plus separate equipment approach.

- | Bespoke combinations and sizes available to suit specific site requirements.
- | Quick & easy installation.  
- One day/weekend
- | Non fixed standalone structure which can be considered for most locations.
- | 2 Year Warranty on chilled & heated units

LARGE
